

## THE INTERNATIONAL DEVELOPMENT OF THE GPI GROUP CONTINUES. 5 MILLION EURO TENDER AWARDED FOR THE STATE OF MALTA

Trento, 08 October 2018

GPI (GPI:IM), a company listed on the AIM Italia and reference technological partner on the Health and Social market, reporting that, on 5 October, the award of the tender become executive, for the development of the Electronic Patient Record system for Primary Healthcare in the **State of Malta**.

The total value of the tender comes to approximately 5 million euros; the contract term is 9 years, of which 1 for the implementation phase and 8 for support and maintenance.

The tender envisages development of the Electronic Health File for Primary Healthcare, which includes and allows for the integration on Maltese territory of 10 hospitals, 60 clinics, 5 specialised centres and 250 GPs, for a total of approximately 1,000 healthcare professionals involved.

**Fausto Manzana**, Chairman and Chief Executive Officer of the GPI Group: *"The award of this tender strengthens the presence of the GPI Group on the international market and, at the same time, differentiates and enhances our capacity to operate abroad. Alongside the automation systems for pharmaceutical logistics and systems for the management of transfusion centres, the Group gain international accreditation also with the patient management software systems."*

On 25 September this year, GPI was informed that it had been awarded the tender - with notification by the Malta State Contracts Department, reference no. CT3078/2018. The award was made once the 10 days required by Maltese legislation had passed.

### **GPI GROUP**

GPI (GPI:IM), with registered office in Trento and more than 3,900 employees, was founded in 1988 by Fausto Manzana, and is present both in Italy and abroad through a number of branches. With its cutting-edge social service/healthcare IT products and new hi-tech services for the healthcare sector, it is capable of meeting the transformation requirements and keeping pace with the drive towards innovation of its numerous public and private sector customers. The Group's significant growth has been driven by considerable investments in the R&D Centre, which, in partnership with the main university and research institutions throughout Italy, has the goal of spreading scientific, technological, functional, and process knowledge applied to the e-health, e-welfare and well-being sectors. The Group's offering combines specialised IT expertise and advisory and planning capabilities that make it possible to operate in a range of business areas: IT Solutions, Healthcare Services, Logistics and Automation, Professional ICT Services and Payment Solutions. In recent years, the Group has grown through the acquisition of companies with contiguous or complementary businesses and business development in Italy and abroad. The listing on the AIM Italia, which took place through the merger with SPAC Capital For Progress 1, made it possible to obtain new financial resources in excess of €50 million and is intended to strengthen its presence both domestically and internationally.
