

GPI SIGNS CONTRACTS WORTH € 15 MILLION ABROAD GROUP CONSOLIDATES INTERNATIONAL POSITION IN Q1 25

Trento, 23 April 2025

In the first quarter of 2025 Gpi signed new contracts worth approximately € 15 million abroad, a result that strengthens the Group's international expansion strategy. The year-on-year growth of 67 % clearly demonstrates Gpi's ability to catch the wave of investment in digital health and translate it into concrete value for customers and stakeholders.

Software grows further: signed contracts are worth € 14 million, a 75% increase compared to Q1 2024. Specifically, the **Gpi4Med.BLOOD** Suite close deals worth almost € 5 million, primarily due to the signing of two major contracts in the UK totaling around € 4 million. The reliability of the blood management platform - designed to ensure complete traceability, reduce waste and increase transfusion safety - proves to be a reliable product for all healthcare facilities that have embarked on a decisive path towards digitalisation of clinical processes.

The rest of the **Gpi4Med Suite** - a software and medical devices suite for diagnosis and patient care - also increased by 16% year-on-year, consolidated its competitive position in Europe, and laid a solid foundation for further international development.

Automation, which provides robots for efficient warehouse management of hospital, retail and wholesale pharmacies, reaffirms its value in line with Q1 24 (around € 800,000 of new contracts).

The Q1 2025 results confirm our international growth trajectory and, together with the efficient collaboration of all Group companies, place us in the best position to generate value across the entire digital health value chain globally.

GPI GROUP

Gpi's mission is to make the healthcare systems sustainable through their digitisation, so that everyone can receive high-quality care.

Sustainability and social impact are the guiding principles and play a crucial role in the strategic and investment assessments of the Group, aware that the solutions and services provided to the community have an impact on the quality of life of individuals.

For over 35 years, driven by a patient-centric vision, Gpi has been working to support healthcare systems by providing the skills and innovative tools necessary to improve prevention and treatment processes. This is achieved through the strategic use of advanced software, technologies, and cutting-edge services.

The Group's strategy is designed to meet the evolving requirements of the constantly changing healthcare sector and to facilitate entry into international markets.

The unwavering commitment of its 7,600 employees and a customer base of more than 9,000 across 70 countries, yielded € 510 million in revenue, an EBITDA of € 105 million in 2024.

Gpi S.p.A. is listed on the Euronext Tech Leaders segment of Borsa Italiana, the Italian stock exchange.
