

## GPI AMONG THE FIRST ITALIAN COMPANIES TO BE CERTIFIED UNDER ISO 42001 FOR AI MANAGEMENT

Trento, 7 July 2025

Gpi announces that **it has obtained ISO/IEC 42001 certification**, the new international standard dedicated to Artificial Intelligence (AI) management systems. In the field of healthcare software applications GPI is among the first in Italy, the ninth in Europe and the 54th in the world. The certificate was issued by DNV, an independent third-party body, confirming the Group's commitment to compliant, transparent and safe use of AI.

Artificial intelligence introduces new challenges that require solid tools for responsible management. ISO 42001 is a **benchmark for organisations designing and integrating artificial intelligence systems**, covering aspects such as risk management, data quality, transparency, and observance of fundamental rights. For Gpi, active in the development of AI solutions to support clinical, diagnostic and management pathways, this result consolidates a path that combines technological strength and adherence to regulatory requirements.

This certification ensures that the development and use of artificial intelligence is carried out responsibly, safely and consistently with the Group's values. A choice that reinforces Gpi's commitment to responsible innovation at the service of healthcare.

## GPI GROUP

Gpi's mission is to make the healthcare systems sustainable through their digitisation, so that everyone can receive high-quality care.

**Sustainability and social impact** are the guiding principles and play a crucial role in the strategic and investment assessments of the Group, aware that the solutions and services provided to the community have an impact on the quality of life of individuals.

For over 35 years, driven by a patient-centric vision, Gpi has been working to support healthcare systems by providing the skills and innovative tools necessary to improve prevention and treatment processes. This is achieved through the strategic use of advanced software, technologies, and cutting-edge services.

The Group's strategy is designed to meet the evolving requirements of the constantly changing healthcare sector and to facilitate entry into international markets.

The unwavering commitment of its 7,600 employees and a customer base of more than 9,000 across 70 countries, yielded € 510 million in revenue, an EBITDA of € 105 million in 2024.

**Gpi S.p.A.** is listed on the Euronext Tech Leaders segment of Borsa Italiana, the Italian stock exchange.

ISIN ordinary shares: IT0005221517
